The Leeds Learning Disabilities Partnership Board

Why do we have a Partnership Board?

Valuing People

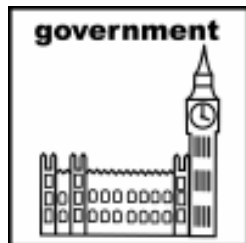

To make what is said in Valuing People happen in Leeds.

To make sure everyone can join in, have a say and know what is going on in Leeds.

To make sure everyone has the right support

To find out what is important to people.

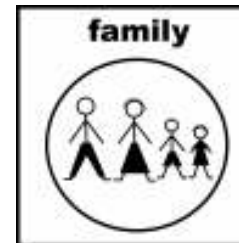

To make sure we are doing what the Government say we should be doing.

To tell the Partnership Executive what we need to do our job.

What we think is important for people with learning disabilities in Leeds - (What we believe in)

Understanding that everyone is different and respect this.

Working together with people and their families to help them get the things they need.

Making sure that peoples voices are heard.

Working in a person centred way.

Everyone working together to get the best results.
