

Being Me Strategy (2018-2021)

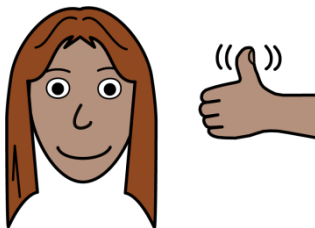

Theme Progress Update

Name of Theme: Travel

Date: 29/11/2018

Things that are going well:

Travel Training: continues to be successful - lots of new referrals and people completing their training.

Travel Ambassadors: The ambassadors have been working really hard on the following:

- 1) Writing a 'learning disability friendly' guide for taxi / bus drivers. This eventually needs to be part of a regional / national guide.**
- 2) Helping customers with complaints about buses**
- 3) Planning 'travel workshops' to be offered to day centres / day opportunities around Leeds**
- 4) One Travel Ambassador is undertaking a formal 'Travel Training Trainer' qualification and looking into possible paid employment opportunities.**

	Joint Working: We have been working closely with: - The West Yorkshire Combined Authority - Inclusion North - People Matters - People in Action - Health for All - British Transport Police
	Things that are not going well: We are lucky, so far, everything is going well!
	How can the Partnership Board help? - Joint working with other Task groups / theme leads (this has been happening and is productive and positive) - Helping contact the relevant people in senior positions - Possible solutions / advice for funding (training videos)
	Who else (outside the Partnership Board) can help us with these issues? - Councillors - Other agencies (WYCA / Police)

Sharing this feedback – Partnership Board
Members might be able to take this information
to decision making boards and other people who
can help.

We will record here which Board members
agreed to do this.
