Madeleine spoke about Leeds Learning Disability awareness week. Madeleine showed the group the report from the Being Social Market Place Event. (please see separate attachment). It was noted that the march from the Civic Hall to the market was extremely wet but it did raise some awareness with bus drivers who hooted their horns etc. Hopefully bigger and better next year.

Anne-Marie shared the booklet (which can be found on the website above) this is a really useful document that can be completed before the appointment and can also help with knowing what kind of questions the doctor or nurse will be asking.
